

## Official Visitations

This year, New Hampshire Rainbow will be going back to our roots and doing OV's the way they used to be. Before outlined skits were done, the Assemblies had complete freedom to how they would plan their OV. For example, during Mom Stacy's "Sailing the World for Peace" grand year, one Assembly planned "gondola races" for those attending to participate in, followed by a spaghetti dinner to represent their Assembly as the country of Italy.

I want each assembly to use their imaginations this year when planning their OV's. There is no right or wrong way to plan an OV. Although there are no skits outlined for this year, that does not mean I am completely banning them from your OV's. If any assembly is more comfortable sticking with writing their own skit, I am more than happy to watch! All I want to see are the assemblies working together to show me how they're a family. This should be a fun night for all! I can't wait to see what everyone has in store!

## Travel Gavel

Have you ever seen that comically large gavel at Grand Assembly and thought to yourself, "I wonder what that was used for"? That, my friends, is the Travel Gavel. The Travel Gavel is used to encourage girls to travel to more statewide events. Each assembly that has the highest percentage of girls at each event will be given the travel gavel until the next stated event. The assembly that has held the Travel Gavel the greatest number of times throughout the year will receive an award at Grand Assembly. Happy travels!
