# HONORED STATION

Disney has been a player in the conservation game for almost 30 years, especially since its opening of Animal Kingdom in Orlando in 1998.

This year, **Grand Nature** is our Honored Station as we take a page from their play book and help protect and appreciate the magic of nature.

As they always say, there is a great big beautiful tomorrow. And as leaders, it is our mission to make sure there is a future for others to enjoy.

We will be working to raise awareness and see how members of NH IORG can get out in the community, helping keep the planet green and enjoying it along the way.

Sisters of Nature in each assembly are encouraged to plan a day of fun – whether it be a beach clean up or a hike with the Assembly. You are a symbol of God's beautiful out-of-doors, protect it.

**There's a great big  
beautiful tomorrow**

# STATE CHARITY:

## LOCAL ANIMAL SHELTERS

This year we will be focusing on bringing the magic of warmth and family to the animals of local shelters.

Grand Charity will still raise money with the state-wide projects, but the total will be split between the shelters of each Assembly's choosing.

Each Assembly is strongly encouraged to raise money for the 'state charity' during the year as well as get involved with the shelter as volunteers or attending their events throughout the year.

Blanket and other drives will also be done through the year to help the shelters.

Animal shelters are meant to prevent animal cruelty, educate humans, and help animals find their forever home. We can help them achieve their dreams!
